#### **How to send a new message to an email address?**

- 1) Press the envelope key
- 2) Select "Message Editor"
- 3) You will be prompted for the body of the message.  
Input the email address, which is usually there by default  
then a space,  
then the message you wish to send.
- 4) Select "Send Message"
- 5) You will be prompted for the phone number. Press \*2, then OK. (gives +\*2 by default)
- 6) Select "Send Message"

#### **How to send a message to an Iridium phone number:**

- 1) Press the envelope key
- 2) Select "Message Editor"
- 3) Input the message you wish to send, then Press OK.
- 4) Select "Send Message"
- 5) Input the phone number (don't forget the " + " ), then press OK.
- 6) Select "Send Message"

#### **Notes**

Use the "up/down" arrow on menu scroll to move the curser to the left/right.

To send a message to a non-Iridium phone, you must use the email address of the other system. The format for different cell service SMS switches varies greatly.

Press the 1 key seven times to create a "@" symbol. You will also see other symbols[.space.1?!,@\_&:()'?!%L\$]
